(2) What does digital citizenship look like for you the WHOLE YEAR?

Assemblies don't change behaviors. Teachers need to regularly talk about it in routine and meaningful ways as well as modeling it. A week that focuses is an awesome kick-off. We also need to incentivize dig cit all year long.

(3) UEN page: <https://www.uen.org/digcit/>

(4) UEN Teacher courses that give teachers ongoing professional dev credits.

(a) Digital detectives

(b) AI

(c) MOOT course

***As an SCC we might consider, **using funds to incentivize teachers?** (Cassandra asks if we can go out into the community to gather donations that can be used to incentivize. Suzie confirms that we can.)

(5) Implement a dig cit school representative to communicate to SCC what our biggest problems are

(6) How DO we use tech for good? Let's focus on the good things that can be done rather than all the things we should NOT do

b) Share what we learned about White Ribbon Week:
